

Aarushi Shanker

2nd year Undergrad

PROFILE

I am an engineering student with a penchant for coding. I juggle the intricacies of Data Structures and Algorithms (C) along with Machine Learning(Python). My determination is to make up what I lack in skills with my quest for learning.

Outside the tech realm, I am an ardent wordsmith and find joy in articulating my caffeine-fueled musings.

Projects

Web Music Player (Spotify Clone):

HTML | CSS | JavaScript

<https://github.com/aarushi-shanker/music-player>

This is an aesthetic music player with UI closely replicating Spotify-Web Player crafted using HTML, CSS, JavaScript. It allows users to play songs of their choice, featuring intuitive playback controls. Audio level can be adjusted as per user's choice. Listen to your favourite singers playlist smoothly on screens of any size.

Rock Paper Scissor - Web Game

HTML | CSS | JavaScript

<https://github.com/aarushi-shanker/rock-paper-scissor>

A classic game of Rock, Paper, Scissors using the dynamic trio of HTML, CSS, JavaScript. It works on screens of any size. The player can smoothly make their move with responsive controls against the gaming bot and the score board will relay you the winner.

Portfolio Website:

Bootstrap | HTML | CSS | JavaScript

<https://github.com/aarushi-shanker/portfolio>

A responsive portfolio website that serves as a digital showcase of my skills, projects and achievements.

Amazon Clone:

HTML | CSS

This is a basic replica of the amazon.com website's homepage User Interface crafted using HTML for structure and CSS for typography and styling elements to closely mimic the amazon.com UI.
